

LAUNDRY L SEALER

Models: LL70 & LL70SA

Manual or Air Assisted

The Shrinkwrap Laundry L Sealer is a British designed and built machine specifically created for the commercial laundry industry. This machine is suitable for use with center folded Polythene film and is available as a manual or air assisted variant.

Complete Wrapped Packs

The machine sealing area is fully adjustable making it suitable for a range of pack sizes. The sealing head moves back and forth and the height of the sprung loaded sealing table can be moved up and down with a simple lever.

Compact & Easy To Use

Requiring a single user, the machine is available with a sealing areas of 700 x 750 cm and occupies a relatively small space. An essential piece of equipment for providing your customers with a fully enclosed laundry pack.

“A very reliable and easy to use machine which we use every day to wrap our linen packs”

Manual Laundry L Sealer—LL70
